*Change the combination:

Changing the combination:

- Set to correct combination.
(Factory set combination is 0-0-0-0.)
- Insert key and turn 90° clockwise to unlock.
- Remove the key.
- Insert the end of a large paper clip (see diagram).
- Push end of paper clip all the way in against the spring. Press and hold paper clip against spring tension.

- While holding paper clip firmly in place, spin the dials to the new desired code in the combination windows. Remove paper clip, and record the new combo.

- Insert key and turn 90° counterclockwise.
- Remove the key.
- Press button to verify the new combo.
