# HPE Renew

Same quality, same warranty, lower price

**Hewlett Packard  
Enterprise**

**Rack**finity

HPE Renew offers a comprehensive portfolio of quality Hewlett Packard Enterprise (HPE) remanufactured products at very attractive prices. All HPE Renew products are covered by the original same-as-new factory warranty, service, and support options.

### **Operational flexibility is vital in the ever-evolving world of IT.**

HPE Renew allows you to develop your IT infrastructure at your own pace, without impacting efficiency. The portfolio consists of everything from the latest technology to older generation products, allowing for simple integration and convergence of equipment into your current IT environment—without having to go too deep into your budget.

### **The HPE Renew portfolio**

- Enterprise Servers
- Enterprise and Commercial Storage
- ProLiant Servers and Options
- Networking Products

## Your low-cost, high-quality solution

Do you have a tight IT budget but still want Hewlett Packard Enterprise quality? HPE Renew delivers a high-performance, low-cost solution when price really counts. HPE Renew products are at least 15 to 30 percent below the price of new, in addition to unbelievable promotions, so you can reduce your IT costs and increase your bottom line.

In this fast-paced technology environment, you may not always want to keep up with the very latest technology. HPE Renew allows you to defy time and maintain your existing IT infrastructure, while adding upgrades and expanding to the next generation—at your own pace.

With HPE Renew you can be sure your product has been remanufactured by the original manufacturer and is an extension of the trusted HPE brand. Software, licenses, service and support options for HPE Renew products are equivalent to those offered with new products. The products are also loaded with the latest software and firmware revisions.

HPE Renew is the solution you need—certified, reliable and trusted HPE products at a price you can afford.

## Five reasons to buy HPE Renew

### 1. Great Value

Get high quality solutions at significant discounts with fully remanufactured Hewlett Packard Enterprise products. HPE Renew delivers high-performance, low-cost solutions while offering the same reliability, functionality and warranty as new HPE products. If you have a limited IT budget, HPE Renew is the perfect alternative—high-quality solutions at a lower cost.

### 2. HPE Certified Quality

All HPE Renew products undergo complete remanufacturing and testing processes, fully restoring them to meet HPE's stringent quality standards and ensuring they meet all original factory specifications.

### 3. Same-as-New Factory Warranty

HPE Renew products are covered by the same-as-new factory warranty, so there is no difference between the warranty of a new HPE product and the equivalent HPE Renew product. The warranty starts from the date of purchase and refreshes the original warranty. Additional service and support options are available to complement the original HPE product warranty.

### 4. Broad Range of HPE Solutions

Whether your organization is looking to implement a new IT platform or planning to maintain or upgrade an existing one, HPE Renew offers a comprehensive portfolio of fully remanufactured HPE solutions to fulfill your specific business needs. HPE Renew offers you current, state of the art technology, in addition to older generation equipment.

### 5. Eco-friendly

Start making sustainable choices for the planet with HPE Renew. By remanufacturing and redeploying returned, loaned or trial units, HPE Renew enables these products to be fully utilized so that they do not end up in landfills. HPE Renew lets you reduce your overall environmental impact while taking advantage of an affordable alternative.
